

Danson Lim

Aspiring Entrepreneur & Investor

Professional with a lifetime's worth of experience as a student. I have keen interests in Computer Science, Investment, Finance, Design and Entrepreneurship. Many of us these days aspire to be entrepreneurs and businessmen, yet many lack crucial technical skills. Having a keen interest in technology, finance and gaming, I have pursued a degree in Computer Science in order to reinforce myself with a strong technical background while also pursuing my interest in Business, Entrepreneurship and Design.
