

# Danson Lim

Aspiring Entrepreneur/Investor/Programmer

Professional Student with a lifetime's worth of experience as a student. I have keen interests in Computer Science, Investment and Entrepreneurship. I am currently studying in SUTD (formed in collaboration with MIT). Many of us these days aspire to be entrepreneurs and businessmen, yet many lack crucial technical skills. Having a keen interest in technology and gaming, I am currently pursuing a computer science degree in order to bolster my technical skills and to supplement my non-technical strengths.
